KHLOÉ GETS POUTY!

The youngest Kardashian sister is no stranger to posting pictures of herself on Twitter, but a recent snap of the starlet's pouty red lips generated more interest than usual – causing many to question whether she had made a trip to the cosmetic surgeon or simply used a lip-plumping lipstick! But according to Dr Joseph Hkeik, of Sydney's All Saints Cosmedical Clinic, Khloé has 'definitely' had work done on her lips. 'Unfortunately she has gone for the "Oh my God! What was she thinking?" style of lip augmentation,' Dr Hkeik tells OK!
